### **Jeremy Slater: INSIDE/OUTSIDE 10**

### **Toydeath: Toydeath**

Nick Wishart, Melissa Hunt and Teik-Kim Pok will reveal their inspirations and ideas behind the all toy circuit bent band Toydeath formed in 1995. There will be plenty of hands on fun as we unleash the contents of a toy box that will make any kindergarten green with envy! There will also be a brief side tour to visit Cell, a MIDI controlled pneumatic orchestra.

### **Brad Garton and Damon Holzborn: mobile audio apps**

Brad Garton and Damon Holzborn will be showing a framework for rapid prototyping and development of iPhone and iPad apps. Based on a port of the ancient and venerable RTcmix music/DSP language to iOS and a Max/MSP prototyping environment, it makes iOS app creation so FUN! so EASY! so DELIGHTFUL! You too can be an APP BILLIONAIRE! Example apps (such as iLooch) will be shown and hawked shamelessly in an effort to break even with the Apple iPhone app developer fee.
